Re: Fire Department Notification Pager

Dear Residents,

To make it easier to contact the Fire Marshals Office after hours, a dedicated pager number has been established. After hours is defined as 5pm-7am M-F and all hours on weekends. This pager can be used to contact the Fire Marshals Office for those residents that wish to report what many consider to be “Non-Emergency” information.

This dedicated pager will be primarily carried by the Fire Marshal or Fire Chief of the Hartland Deerfield Fire Authority, and is a tool that will be used by the Fire Department Administration as “F.Y.I. communication”.

If a page is not provided with a name and contact of the person sending the page, it will not be taken too seriously. All pages signed and un-signed will be documented and logged. Please do not expect all messages to be returned.

Examples of the communications expected on this pager may be: Multiple vehicles parked in fire lanes, overcrowding of an establishment, fire hydrant damage, etc. **Do not count on this pager to report emergencies. The paging system is not 100%. If you need emergency services use 911.** This pager is not to be used as a tool to report neighbors burning leaves. If the smoke is bothering you ask them to stop, or dial 911 to report a burning complaint. If a page is sent regarding open burning, the page will be documented the following business day.

HOW TO USE THE PAGING SYSTEM

- 1) Go to www.myairmail.com
- 2) Type in the following phone number: 810-680-0135
- 3) Then type in the message along with your name and how you can be reached.
- 4) Click send message.

Thank you very much for your participation. The Hartland Deerfield Fire Authority strives to make our community a safe and enjoyable destination to visit and live. If you should have further questions, please feel free to contact me at 810-632-7676 extension 18.

Yours In Fire Safety,

Michael R. Bernardin

Fire Marshal
